Electric height-adjustable assembly table

E-LINE

The **E-LINE 200** electric height-adjustable assembly table is the ideal solution for fast-changing process and production sequences. The low-noise, infinitely variable electric height adjustment means the workstation can be rapidly adapted to the workpiece size and worker height, making it perfect as a desk-sharing or shift-work station. The memory function enables up to 4 station heights to be stored. With its high load capacity of up to 200 kg, the **E-LINE 200** assembly workstation can also withstand heavier weight demands. The flexibly deployable accessory components and easy-reach tools ensure efficient working processes in the assembly area.

2 MOTOR
powerful and practical

2 tabletops available:

Melamine light grey, 22 mm

Extremely hard-wearing and scratch-resistant, anti-glare and non-sensitive. Smooth, easy-to-clean surface.
Applications: For activities not involving higher mechanical and chemical demands.

Multiplex oiled, 22 mm

Hard-wearing, impact-resistant, highly durable and robust. Water-resistant glue and environmentally-friendly oil finish.
Applications: For the assembly and production area, with higher mechanical demands.

Technical specifications:

Width: approx. 1500 mm
Depth: approx. 800 mm
Electrical height adjustment: approx. 732 - 1232 mm
Load capacity: 200 kg

excl. tare weight and attachment weight and only with even weight distribution.

Also available in other width sizes 1600, 1800 and 2000 mm, and with depth of 1000 mm.

LED control panel

LED display for precise altitude display

Up and down buttons

Memory function with 4 memory buttons

The benefits at a glance

- Light-weight, modern design assembly workstation
- Large adjustment range, fast adjustment
- High load capacity up to 200 kg
- High level of flexibility due to multi-faceted accessories in the modular system
- Suitable for use as assembly, test and CAD workbench
